WORK EXPERIENCE

Applications Developer, MO-OA-ITSD-DHSS

08/2023 – Present

ACCOMPLISHMENTS

- Worked with a small team of developers to update 40+ apps in Visual Basic and C# to meet ada compliance within a small deadline.
- As the sole developer, created a small internal C# application that could edit, insert, and delete sensitive data using a GUI, saving approximately 10 hours of work weekly.
- Maintained and edited millions of users' sensitive records in SQL and Oracle, by writing scripts to modify the data and database design.
- Became the lead developer on a complex set of applications within only 1 year of my start date.
- Addressed thousands of lines of technical debt in over 40 custom state applications.

RESPONSIBILITIES

- Create internal-facing software solutions, including .NET web apps, APIs, services, and tasks.
- Debug and update 40+ public and internal applications that are used daily by millions.
- Communicate clearly with QC, management, business, and users for clear goals and guidelines.

Full Stack Developer, Freelance

06/2023 – Present

- Created a C# WinForms desktop inventory management system for a reputable retailer.
- Designed and deployed websites for small businesses.
- Constructed an MVC C# web inventory management system for a local nonprofit.
- Other small projects can be found on my website: williamdwatts.com

Owner/Manager, Will's Game Lounge LLC

11/2016 - 03/2018
